

# **Abstract Writing Instructions**

**The Science abstract is a concise synopsis of the project. It briefly describes from start to finish the overall significance of the project.**

**The Biblical abstract generally relates the overall philosophy of the project to Scripture. It explains how the project harmonizes with creation and /or other Biblical principles.**

**Writing Requirements: Both abstracts should be single-spaced using 12-point Times New Roman type. Abstracts may not be less than 150 words or greater than 250 words and must be typed within the predefined area.**

**The science abstract must be displayed on the lower left (when facing the board) of the display board.**

**See the Intel Science Fair Student Handbook for an example of a written abstract.**

**The Biblical abstract will be placed in the Project Notebook.**
